

Managed Firewalls

Protect Your Agency's Network

Secure Agency Firewall Protection

DIS Managed Firewalls provide protection for your network from unauthorized access and malicious attacks. With a firewall being the critical gateway in to a network, having this device managed with the highest degree of attention and expertise to protect critical agency assets can deliver peace of mind. The DIS managed firewall security solutions are state of the art firewall technology leveraging technical skill and experience.

Benefits include:

- Establishing perimeter network security to protect critical assets
- Leveraging DIS enterprise resources to save on hardware, licensing, and support costs
- Compliance with ISB Standards and industry best practices
- 24x7 firewall service monitoring and help desk
- Utilizing DIS staff expertise to allow you to focus on core agency business requirements

Managed Firewall services are available in two service categories. Choose the service that best fits your agency's needs:

DIS-Managed Firewalls are a fully managed firewall solution which includes policy setting and configuration in addition to ongoing firewall management.

Co-Managed Firewalls offer a solution designed for agencies with IT security staff and the business need to jointly maintain their firewall. Customer agencies may have the ability to make their own firewall changes in addition to the security provided by DIS.

DIS Security Solutions

- DIS Enterprise Security staff are specialists. They will work with you to meet your business needs.
- DIS' Security solutions offer industry best practices and comply with ISB Security Standards.
- 24x7 Help Desk and customer support services are provided.
- 24x7 service monitoring and premier vendor support contracts are available.
- A design review process is in place for discussing new information technology solutions with both new and existing customers. This consultative service helps ensure the best solutions for meeting both agency business goals and security requirements.
- DIS' enterprise security services leverage state-wide economies-of-scale, while enabling your agency to effectively carry out its mandate to serve the public.
